THE PIPE COLLAR

PATENT #5226263

- Permanent Weather Tight Vent Pipe Counter Flashing
- Made of a Special EPDM Rubber
- Meets ASTM D-2000 Standards
- Sizes: 1", 1½", 2", 3", 4"
- Compatible for Pitched and Flat Roof Systems
- Eliminates Unreliable Mastic, Caulking or Taping

The **PIPE COLLAR** by Wil-Mar Products was developed to eliminate the problem that exists when sealing a vent pipe to a roof flashing. The **PIPE COLLAR** is made from a special EPDM rubber compound that meets ASTM D-2000 Standards for hi-lo temperature, oil, ozone and sunlight resistance. It is warranted to last as long as any of the roofing systems being offered today. The **PIPE COLLAR**'s unique

design allows it to slide easily down any pipe, (i.e. plastic, copper, galvanized, soil, etc.) but stay firmly attached to the pipe so that it moves when the pipe moves, and the seal is completely weatherproof. Because you only attach the **PIPE COLLAR** to the pipe and not to the roof flashing, you eliminate the need for tape or mastic that wears out, breaks, or pulls the flashing away from the roofing causing costly roof leaks.

LIMITED PRODUCT WARRANTY

Wil-Mar Products, Inc. warrants THE PIPE COLLAR against defects in manufacture for the life of the roofing system being installed. This warranty is limited to the replacement of THE PIPE COLLAR only. Wil-Mar Products, Inc. will not be liable for any incidental, consequential or special damages, however caused. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED.
